

Subpart J—Environmental Pollution Prevention, Control, and Abatement Report (RCS DD-I&L (SA) 1383)

GENERAL

§ 650.231 Purpose.

(a) This chapter provides reporting procedures to be followed within the Department of the Army to control environmental pollution from existing facilities as contained in section 3(a) (3) Executive Order 11752 of December 17, 1973, entitled, "Prevention, Control and Abatement of Environmental Pollution at Federal Facilities." This section of the Executive Order provides that "Heads of Federal agencies shall, with regard to all facilities under their jurisdiction in the United States: * * * (3) Present to the Director of the Office of Management and Budget (OMB), annually, a plan to provide for such improvement in the design, construction, management, operation, and maintenance of existing facilities as may be necessary to meet applicable standards specified * * *"

(b) The report described herein will be the principal mechanism for identifying pollution control projects and those resources needed to effectively execute installation and major command Environmental Programs. Properly defined information presented in this report can be used as a basis for necessary programing and budget actions by DA and major commands.

(c) These instruction implement OMB Circular A-106, dated 31 Dec 74, which supersedes OMB Circular A-78 and A-81, dated 18 May 70.

§ 650.232 Explanation of terms.

(a) The terms used herein will be the same as those defined in chapter 1.

(b) The term "project" will mean an action to achieve needed corrective measures relative to identified environmental pollution sources.

(c) The term "cost" will mean the amount of funds required to install the necessary environmental protection measures. These funds include the capital costs of structures and equipment, irrespective of the appropriation chargeable, but not the annual maintenance and operating costs.

§ 650.233 Applicability.

Each active, semiactive and Army Reserve installation operated by or for the Department of the Army, and National Guard facilities/sites supported by Federally appropriated funds in the Continental United States; Alaska and Hawaii, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Panama Canal Zone, and the Trust Territories of the Pacific, whether Army-controlled or under jurisdiction of the Army by lease or similar instrument, where environmental protection measures do not meet the current requirements and/or standards established by appropriated Federal, State or local regulatory agencies are to be listed in the Environmental Pollution Control Report. Each installation identifying a new pollution source or environmental protection requirement will report through command channels in accordance with these instructions. Negative report will be rendered by responsible commands in the form of a listing of those installations where remedial measures are not needed to correct a source of pollution or where no additional resources are needed to meet the provisions of this regulation.

§ 650.234 Scope.

(a) The report described herein consists of one exhibit to be prepared at the installation or activity level and two exhibits to be prepared at the major command level. Reports are to be forwarded through channels to HQDA (DAEN-FEU) WASH, DC 20314, by November 15, and May 15, of each year. The exhibits will reflect information as of October 20, and April 20.

(b) Exhibit 1 is entitled—Proposed Project Report. Separate Exhibits will be prepared for each project or activity on an installation in each of the following categories:

- (1) Air pollution.
- (2) Water pollution.
- (3) Solid waste pollution.
- (4) Radiation pollution.
- (5) Noise pollution.
- (6) Pesticide and hazardous/toxic materials pollution.
- (7) Environmental management.
